Art Unit 222

(S) Claims 1-7 are deemed to be allowable as the prior art fails to anticipate or obviate the claimed multilayered optical power limiter.

(S) Although the prior art does disclose chalcogenide, vanadium dioxide, and germanium filters and power limiters operating separately, it fails to obviate their combination in the order claimed, and which combination provides unobvious improvements in damage threshold, switching threshold, and optical density.

(U) References A-I which are cited on the herewith enclosed PTO-892 form are cited to show each of the aforesaid power limiters, and the general state of the art.
